
Biographical Sketch

ALONDRA S. RODRÍGUEZ ROLÓN

Undergraduate Student
Chemistry Department, UPR-RP

Email: alondra.rodriguez019@gmail.com

Education:

2015-present UPR-RP
Chemistry B.S. (expected)

Research Interest

The Organic Chemistry plays an important role on the development of drugs. Provides advantages in medical and pharmaceutical areas. For this reason, I am interested in the synthesis of compounds to develop a potent drug with biological application.

Research Experience

2017-present Undergraduate Research Program
Research and Educational Organic Laboratory
University of Puerto Rico, Rio Piedras
PI: Dr. Ingrid Montes

2016 (semester) Undergraduate Research
Electrochemistry Laboratory
University of Puerto Rico, Rio Piedras
PI: Dr. Carlos Cabrera

Honors

2017-present Minority Access to Research Careers (MARC) Research
Assistantship
University of Puerto Rico, Rio Piedras Campus

2015-present Dean's List Natural Science Faculty

Memberships

2015-present American Chemical Society (ACS)
University of Puerto Rico, Rio Piedras Student Chapter
