

Biographical Sketch

Felipe A. Rivera Adorno

Current Status

B.S. Student
Dept. of Chemistry, UPR-RP

Email: felipe.rivera08@hotmail.com

Education

2013-2014	La Salle University (Biology)
2015-present	UPR-Rio Piedras
2019	BS Chemistry (expected)

Research Interest:

Aerosols are known to have an impact on the radiative balance over our planet by scattering and absorbing incoming solar radiation. I have interest in studying aerosol particles from different sources and analyze how their variable chemical and physical properties affect the amount of ultraviolet and total solar radiation that is reaching surface over the northeast zone of Puerto Rico.

Research Experience:

2016-present	UPR-RP, Atmospheric Chemistry and Aerosols Research (ACAR) (PI, Dr. Olga Mayol-Bracero)
--------------	---

Honors

2016-present	Dean's List
2016-present	The National Society of Collegiate Scholars (NSCS)
2016-present	Golden Key International Honour Society
2017-present	Maximizing Access to Research Careers (MARC) Research Assistanship
