

Biographical Sketch

Geraldo L. Durán Camacho

Current Status

Junior, B.S. Degree
Department of Chemistry, University of Puerto Rico

Email:

geraldo.duran1@upr.edu

Education:

2014- Present	UPR-Río Piedras
2018	BS Chemistry (expected)

Research Interest:

Organic Synthesis of bioactive compounds including organometallics and a variety of functional groups. Among the compounds that had recently exhibit biological potential as anti-plasmodial, anti-bacterial and anti-cancer are compounds with chalcone and heterocyclic moieties, among them, the ferrocenyl chalcones.

Novel second generation ferrocenyl chalcone derivatives as potential anticancer and antimalarial candidates

Research Experience:

2016- Present	Dr. Ingrid Montes' Organic Synthesis Research Lab
---------------	---

Honors:

2016- Present	NIH- Minority Access to Research Careers (MARC) Fellowship
---------------	--
