

Biographical Sketch

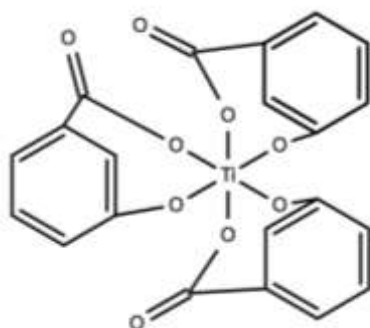

PATRICIA N. GONZÁLEZ PAGÁN

Current Status

Chemistry B.S. Student
University of Puerto Rico, Río Piedras Campus

Email

patricia.gonzalez6@upr.edu

Research Interests

In recent years, cancer has become one of the leading causes of death in the United States. In our lab, we explore the anticancer mechanism for titanium (IV) complexes as inhibitors of intracellular iron. In the future, we hope to develop a viable treatment option for patients with cancer.

Research Experience

March 2018 – present UPR-RP Bioinorganic Chemistry – Dr. Arthur Tinoco

Honors

2016 – present	Dean's Honor List
2016 – present	National Honor Society for Collegiate Scholars Member
2018 – present	The National Society of Leadership and Success Selectee
2018 – present	Minority Access to Research Careers (MARC) Assistantship
