

Biographical Sketch

Emmanuel F. Rivera Iglesias

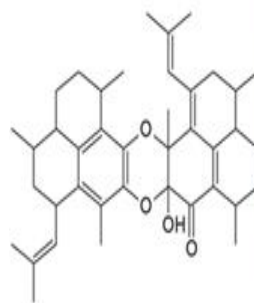

Current Status

Senior Undergraduate Student
Dept. of Chemistry, UPR-RP

Email: Emmanuel.rivera25@upr.edu

Education

| | |
|----------------|-------------------------|
| 2014-2016 | UPR-Bayamón |
| 2016-(present) | UPR-Rio Piedras |
| 2020 | BS Chemistry (expected) |

Biselisabethoxane B

**Pseudopterogorgia
elisabethae**

Research Interests:

The interest of research includes an area in organic chemistry and marine natural products. The marine natural products such as secondary metabolites have a potential biological activity against disease-causing pathogens. My plan is to isolate, elucidate, and confirm the molecular structure of these secondary metabolites and carried out a series of bioassays to establish its biomedical importance.

Research Experience

2018-(present) UPR-RP, Investigation Center Facundo Bueso, Discovery of Marine Natural Products (PI, Dr. Abimael Rodríguez)

Honors

2014-present Dean's List

2018-present Maximizing Access to Research Careers (MARC) Research Assistantship

Presentations at Local Meetings
