

Bioskech – Gabriela Rosado

Gabriela T. Rosado González is a third-year undergraduate chemistry student from the University of Puerto Rico, Rio Piedras Campus. In her search for different social and scientific interest she has participated in school organizations like MEDLIFE and the American Chemistry Society (ACS). Also, she is part of the University of Puerto Rico Honor program and Dean's list. Gabriela form part of the Research Initiative for Scientific Enhancement (RISE) program dedicated to enhance and provide opportunities to continue a career in science. Currently, she is part of Suranganie Dharmawardhane, PhD biochemistry laboratory at the University of Puerto Rico Medical Science campus. Gabriela is interested in the evaluation of pharmacokinetics of the novel anti-metastatic drug MBQ-167 necessary for the continued development of this drug as a potential anti-cancer therapeutic. After graduation, she intends to complete a MD-PhD in biochemistry and do research in innovative Nano-drug delivery processes and its effect in the human body.
