

Rachel N. Blundell Alemán

rachel.blundell@upr.edu

Personal Statement: My passion for research is embedded in my bones. I have always been curious about the laws of nature and its phenomena. As a junior majoring in Chemistry and being part of the RISE Program, I am developing research skills that will help me become a better PhD candidate in Chemistry. With these studies, I wish to understand the world around me and make it a better place to live in.

Education:

University of Puerto Rico Río Piedras Campus, B.S. in Chemistry in progress – 2015 to present

Research Experience:

UPR-RP, Analytical and Environmental Chemistry, (mentor: Dr. Liz M. Díaz Vázquez) – 2017 to present

Presentations:

4th Undergraduate Encounter of Investigation and Creation – 2016

Honors:

Assistant Researcher with the Research Initiative for Scientific Enhancement (RISE) – 2017 to present

Admitted to Research Experience for Undergraduates in Nanotechnology Program at the University of Wisconsin-Madison (Summer 2018)
