

Biographical sketch

José Alberto Reyes Franceschi

Current Status:

Undergraduate Student Department of Chemistry, UPR-RP

Email:

jose.reyes19@upr.edu

Education:

2016-present UPR-Río Piedras B.S. Chemistry

Research Interests:

Areas of research include: Organic chemistry, biochemistry and electrochemistry. Currently I am working with the utilization of organometallic compounds in the electrocatalysis of NADH oxidation to measure concentration of enzymes thought to be biomarkers for different diseases and conditions.

Research experience:

2017-present undergraduate research student in the Applied Electrochemistry Research Lab lead by Dra. Ana R. Guadalupe in the UPRRP

Summer 2018 Sumer undergraduate research student in the Whür Lab at Princeton University in NJ

Honor:

2018 Research Initiative for Scientific Enhancement (RISE) Research Fellowship
